VIETNAM INFRASTRUCTURE LIMITED

REPORT OF THE BOARD OF DIRECTORS

The Board of Directors (“the Board”) submits its report together with the condensed consolidated interim financial information of Vietnam Infrastructure Limited (“the Company”) and its subsidiaries (together “the Group”) for the six-month period ended from 1 July 2016 to 31 December 2016 (“the period”).

The Group

Vietnam Infrastructure Limited is incorporated in the Cayman Islands as a company with limited liability. The registered office of the Company is PO Box 309GT, Uglan House, South Church Street, George Town, Grand Cayman, Cayman Islands.

Vietnam Infrastructure Limited together with its subsidiaries herein are referred to as a Group.

Principal activities and shareholders’ equity

The original principal activity of the Group was to invest in a diversified portfolio of entities owning infrastructure projects and assets primarily in Vietnam. The Group could invest and hold equity and debt instruments in unquoted companies that themselves held, developed or operated infrastructure assets. The Group could also invest in entities whose shares or other instruments were listed on a stock exchange, or traded on over-the-counter (“OTC”) markets and in other funds that invested in infrastructure projects or assets.

On 22 July 2015, following shareholder approval of a proposal to restructure the Company, the listed and private equity components of VNI's portfolio were separated into two distinct pools, the Listed Portfolio and the Private Equity Portfolio. Each pool of assets was represented by a separate share class, Listed Portfolio Shares (“LPS”) and Private Equity Shares (“PES”), which were listed on the London Stock Exchange’s Alternative Investment Market (“AIM”) under the tickers VNIL and VNI, respectively. Both classes of shares meet the definition for financial liabilities under International Accounting Standard 32 (“IAS 32”) (refer Note 15 of the consolidated financial statements for the year ended 30 June 2016).

The Listed Portfolio assets and any surplus cash in the Company were contributed to Forum One-VCG Partners Vietnam Fund (“VVF”), a newly established sub-fund of Forum One, a Luxembourg open-ended investment company or SICAV (“Forum One”) for consideration of 10,242,351 Class A VVF shares at the subscription price of USD10 per Class A VVF share. VVF’s investment strategy is to invest in equities listed on the Ho Chi Minh Stock Exchange and the Hanoi Stock Exchange; and other issuers that carry out a substantial part of their economic activity in Vietnam and are listed, traded or dealt on other stock exchanges. The VVF shares were distributed to LPS shareholders between August 2015 and August 2016 in return for their LPS shares. Following the final distribution of VVF shares and receipt of all outstanding LPSs from shareholders the AIM listing for VNIL was withdrawn and all outstanding LPS were cancelled.

The Company has ceased making new private equity investments and is seeking to fully realise the Private Equity Portfolio by 30 June 2017. Once this objective is met it will seek to be wound up within six months. The proceeds from the sale of the private equity assets and any surplus net cash-flows will, subject to each shareholders’ election, be distributed to the PES shareholders in cash, else to them in the form of VVF units distributed in specie.

REPORT OF THE BOARD OF DIRECTORS (continued)

Results, dividends and distributions to the shareholders

The results of the Group for the period ended 31 December 2016 and the state of its affairs as at that date are set out in the condensed consolidated interim financial information from pages 6 to 40.

The Board does not recommend the payment of a dividend for the period ended 31 December 2016 (period ended 31 December 2015: nil).

On 31 January 2017, the Company announced the distribution of USD65.0 million which will be paid to PES shareholders early March 2017 (period ended 31 December 2015: nil) based on the record date 24 February 2017. This represented USD0.1856 for each PES currently in issue.

Significant changes in the state of affairs

Going concern

The Company is progressively realising its Private Equity Portfolio which it expects to complete by 30 June 2017. Following the realisation of the portfolio and return of proceeds to PES shareholders the Company will be wound up in accordance with the Amended and Restated Memorandum of Association dated 15 December 2014. As a consequence this condensed consolidated interim financial information has been prepared using the liquidation basis, as the going concern basis is no longer considered appropriate. The Company continues to apply the same IFRS accounting policies as has been used in prior years as management do not believe there is a difference in the accounting measurement basis that would be applied using a going concern basis of accounting versus what would apply under a liquidation basis of accounting.

Board of Directors

The members of the Board of the Company during the period and up to the date of this report are:

Name	Position	Date of appointment/departure
Rupert Carington	Chairman	Appointed as Chairman on 3 April 2014 Appointed as a Director on 1 October 2012
Robert Binyon	Director	2 September 2013
Paul Garnett	Director	1 November 2014
Luong Van Ly	Director	29 June 2007

Auditors

The Group's auditor is PricewaterhouseCoopers.

Subsequent events

Details of significant subsequent events which impact on the financial position of the Group are set out in Note 32 to the condensed consolidated interim financial information.

Directors' interests in the Company

As at 31 December 2016, no director has an interest in the Company by way of holding shares, underlying shares or debentures of the Company.

REPORT OF THE BOARD OF DIRECTORS (continued)

Board of Directors' responsibility in respect of the condensed consolidated interim financial information

When preparing the condensed consolidated interim financial information, the Board of Directors is required to:

- i) adopt appropriate accounting policies which are supported by reasonable and prudent judgements and estimates and then apply them consistently;
- ii) comply with the disclosure requirements of International Accounting Standard 34, "Interim Financial Reporting" as issued by the International Accounting Standards Board ("IASB") or, if there have been any departures in the interest of fair presentation, ensure that these have been appropriately disclosed, explained and quantified in the condensed consolidated interim financial information;
- iii) maintain adequate accounting records and an effective system of internal control;
- iv) prepare the condensed consolidated interim financial information on a liquidation basis as the Company's strategy is to wind up over the next 6 months; and
- v) control and direct effectively the Group in all material decisions affecting its operations and performance and ascertain that such decisions and/or instructions have been properly reflected in the condensed consolidated interim financial information.

The Board of Directors is also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Board of Directors confirms that the Group has complied with the above requirements in preparing the condensed consolidated interim financial information.

Statement by the Board of Directors

In the opinion of the Board of Directors:

- i) The accompanying condensed consolidated balance sheet, condensed consolidated statement of changes in equity, condensed consolidated statement of changes in net assets attributable to holders of redeemable shares, condensed consolidated income statement, condensed consolidated statement of comprehensive income, and condensed consolidated statement of cash flows, together with the notes thereto, have been properly drawn up and give fair presentation of the financial position of the Group as at 31 December 2016 and the results of its operations and cash flows for the period ended on that date in accordance with the International Accounting Standard 34, "Interim Financial Reporting" as issued by the IASB.
- ii) As disclosed in Note 2 to the condensed consolidated interim financial information, the Board seek to wind up the Company within 6 months of the final disposal of its Private Equity Portfolio. As the value of the Company's assets exceed the value of its liabilities there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

On behalf of the Board of Directors

Rupert Carington
Chairman

Report on review of interim financial information

To the Board of Directors of Vietnam Infrastructure Limited

Introduction

We have reviewed the accompanying condensed consolidated interim financial information of Vietnam Infrastructure Limited (the "Company") and its subsidiaries (together, the "Group"), which comprise the condensed consolidated balance sheet as at 31 December 2016, and the condensed consolidated statement of changes in equity, condensed consolidated statement of changes in net assets attributable to holders of redeemable shares, condensed consolidated income statement, condensed consolidated statement of comprehensive income, and condensed consolidated statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes.

The directors of the Company are responsible for the preparation and presentation of condensed consolidated interim financial information in accordance with IAS 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of the condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with International Accounting Standards 34 "Interim Financial Reporting".

Emphasis of Matter

We draw attention to Note 2 to the condensed consolidated interim financial information, which states that the Company will be wound up in accordance with the Amended and Restated Memorandum of Association dated 15 December 2014. As a result, the condensed consolidated interim financial information have been prepared on a liquidation basis of accounting. Our conclusion is not qualified in respect of this matter.

VIETNAM INFRASTRUCTURE LIMITED

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

1 GENERAL INFORMATION

Vietnam Infrastructure Limited (“the Company”) is a limited liability company incorporated in the Cayman Islands. The registered office of the Company is PO Box 309GT, Ugland House, South Church Street, George Town, Grand Cayman, Cayman Islands.

The original principal activity of the Group was to invest in a diversified portfolio of entities owning infrastructure projects and assets primarily in Vietnam. The Group could invest and hold equity and debt instruments in unquoted companies that themselves held, developed or operated infrastructure assets. The Group could also invest in entities whose shares or other instruments were listed on a stock exchange, or traded on over-the-counter (“OTC”) markets and in other funds that invested in infrastructure projects or assets.

On 22 July 2015, following shareholder approval of a proposal to restructure the Company, the listed and private equity components of VNI’s portfolio were separated into two distinct pools, the Listed Portfolio and the Private Equity Portfolio. Each pool of assets was represented by a separate share class, Listed Portfolio Shares (“LPS”) and Private Equity Shares (“PES”), which were listed on the London Stock Exchange’s Alternative Investment Market (“AIM”) under the tickers VNIL and VNI, respectively. Both classes of shares meet the definition for financial liabilities under International Accounting Standard 32 (“IAS 32”) (refer Note 2.2 of the consolidated financial statements for the year ended 30 June 2016).

The Listed Portfolio assets and any surplus cash in the Company were contributed to Forum One-VCG Partners Vietnam Fund (“VVF”), a newly established sub-fund of Forum One, a Luxembourg open-ended investment company or SICAV (“Forum One”) for consideration of 10,242,351 Class A VVF shares at the subscription price of USD10 per Class A VVF share. VVF’s investment strategy is to invest in equities listed on the Ho Chi Minh Stock Exchange and the Hanoi Stock Exchange; and other issuers that carry out a substantial part of their economic activity in Vietnam and are listed, traded or dealt on other stock exchanges. The VVF shares were distributed to LPS shareholders between August 2015 and August 2016 in return for redeeming their LPS shares. Following the final distribution of VVF shares and receipt of all outstanding LPSs from shareholders the AIM listing for VNIL was withdrawn and all outstanding LPS were cancelled.

The Company has ceased making new private equity investments and is seeking to fully realise the Private Equity Portfolio by 30 June 2017. Once this objective is met it will seek to be wound up within six months. The proceeds from the sale of the private equity assets and any surplus net cash-flows will, subject to each shareholders’ election, be distributed to the PES shareholders in cash, else to them in the form of VVF units distributed in specie.

The condensed consolidated interim financial information for the six-month period ended 31 December 2016 was approved for issue by the Board of Directors on 08 March 2017.

2 BASIS OF PREPARATION

This condensed consolidated interim financial information for the six-month period ended 31 December 2016 has been prepared in accordance with International Accounting Standard 34, “Interim Financial Reporting” as issued by the International Accounting Standards Board (“IASB”). It does not include all of the information required in the annual consolidated financial statements which are prepared in accordance with International Financial Reporting Standards (“IFRS”). Accordingly, this condensed consolidated interim financial information is to be read in conjunction with the annual consolidated financial statements of the Group for the year ended 30 June 2016.

2 BASIS OF PREPARATION (continued)

Going concern

The Company is progressively realising its Private Equity Portfolio which it expects to complete by 30 June 2017. Following the realisation of the portfolio and return of proceeds to PES shareholders the Company will be wound up in accordance with the Amended and Restated Memorandum of Association dated 15 December 2014. As a consequence, this condensed consolidated interim financial information has been prepared using the liquidation basis, as the going concern basis is no longer considered appropriate. The Company continues to apply the same IFRS accounting policies as has been used in prior years as management do not believe there is a difference in the accounting measurement basis that would be applied using a going concern basis of accounting versus what would apply under a liquidation basis of accounting.

3 ACCOUNTING POLICIES

The accounting policies adopted are consistent with those of the previous financial year ended 30 June 2016, except additional accounting policies as described below.

The AIM Rules for Companies require comparative figures for the balance sheet for the corresponding period end in the preceding financial year which differs to IAS 34 which requires comparative figures for the balance sheet for the immediately preceding financial year end. The Group continues to elect to report in accordance with IAS 34 and as such has agreed with the London Stock Exchange a derogation from the above requirement of the AIM Rules for Companies in order to comply with IAS 34.

New standards and interpretation effective from 1 July 2016 adopted by the Group

There are no standards, interpretations and amendments to existing standards that are effective for the financial period beginning 1 July 2016 that have had a material impact on the Group.

4 SEGMENT INFORMATION

In identifying its operating segments, management generally follows the Group's sectors of investments which are based on internal management reporting information for the Investment Manager's management, monitoring of investments, and decision making. The operating segments by investment portfolio include energy, property and infrastructure development, telecommunications, transportation and logistics, general infrastructure, other capital markets and cash.

Each of the operating segments are managed and monitored individually by the Investment Manager as each requires different resources and approaches. The Investment Manager assesses, as reported to the Board, segment profit or loss using a measure which is consistent with that in profit or loss. There have been no changes from prior periods in the measurement methods used to determine reported segment profit or loss.

(c) **Restating prior periods**

Under IFRS 5 - *Non-current assets held for sale and discontinued operations*, the Company must disclose prior period information for discontinued operations in the condensed consolidated interim financial information so that the disclosure cover all operations that have been discontinued at the end of the reporting period of the latest period presented. The discontinued operations presented in the condensed consolidated statement of comprehensive income and the condensed consolidated statement of cash flows in the comparative period therefore include all operations that have been discontinued by the current period end. This means that the condensed consolidated statements of comprehensive income and cash flows for the comparative period show as discontinued operations both reported as discontinued in the previous period together with those classified as discontinued in the current period. As a consequence the restated prior period statements of comprehensive income and cash flows will not be entirely comparable to the current period's figures.

In contrast, the balance sheet information for the prior period is neither restated nor remeasured.

15 SHARE CAPITAL

On 21 July 2015 the Company's ordinary shares were re-designated as PES and a bonus issue of a new class of LPS was undertaken. As a result each VNI shareholder held an equal number of PES and LPS. The PESs give the holders the right to receive cash distributions and the LPSs were subject to mandatory repurchase in August 2016, so both meet the definition of financial liabilities under International Accounting Standard 32 ("IAS 32"). Accordingly, both share classes have been classified as financial liabilities.

All of the remaining 107,281,741 LPS were repurchased by the Company on 17 August 2016 in exchange for 3,288,435,511 Class A VVF shares. Following the compulsory repurchase all of the LPSs have been cancelled.

The movements LPSs and PESs during the period were as follows:

	Listed Portfolio Shares	
	Number of shares	USD'000
As at 1 July 2016	107,281,741	38,311

Short-term borrowings:		
Current portion of long-term bank borrowings	-	9,042
	<u>-</u>	<u>9,042</u>
Total	<u>-</u>	<u>9,042</u>

Under the liquidation basis of accounting all long-term borrowings which are expected to be realised or settled within the next twelve months from the reporting date are classified as short-term borrowings as at reporting date.

As at 30 June 2016 according to the original contract terms, the Group's borrowings, which are denominated in USD, mature on a range of dates up until October 2019 and bear a range of annual interest rates from 3.9% to 4.1%. The borrowings were secured by the BTS tower network as disclosed in Note 13. As at 31 December 2016 the outstanding loan had been fully repaid to lender.

The maturities of the Group's borrowings at the reporting date were:

20 REVENUE AND COST OF SALES

The Group's revenue represents rental income from the BTS tower network and the IBS network and associated leasing and information rescue services. All revenue is derived from external customers, although 60.6% of total sales during the six-month period amounting to USD5.8 million (2015: 62% of total sales during the period) was sourced from one customer.

The Group's cost of sales mainly relates to the operating costs of the BTS and IBS leasing business and provision of related services.

The analysis of cost of sales based on the nature of the more significant expenses is as follows:

24 INCOME TAX EXPENSE

Vietnam Infrastructure Limited is domiciled in the Cayman Islands. Under the current laws of the Cayman Islands, there is no income, state, corporation, capital gains or other taxes payable by the Company.

The majority of the Group's subsidiaries are domiciled in the British Virgin Islands and so have tax exempt status.

The principal operating subsidiaries of the Group are established in Vietnam and are subject to corporate income tax in Vietnam. The income from these subsidiaries is taxable at the applicable tax rate in Vietnam. On 19 June 2013, the Vietnamese National Assembly approved a new corporate income tax law. Under the new law, the standard corporate income tax has been reduced from 22% to 20% effective 1 January 2016. A provision of USD0.7 million was provided for corporate income tax payable by the Vietnamese subsidiaries for the current period (2015: USD0.4 million).

The relationship between the expected income tax expense based on the applicable income tax rate and the tax expense actually recognised in the condensed consolidated income statement can be reconciled as follows:

27 RELATED PARTIES

(a) Management fees

The Group is managed by VinaCapital Investment Management Limited (the "Investment Manager"), incorporated and registered as a licensed fund manager in the Cayman Islands. On 20 November 2014, the Company signed a new investment management agreement with the Investment Manager, which became effective on 27 July 2015 (the "new Investment Management Agreement"). Under this agreement no management fee is charged by the Investment Manager to the Company on either the LPS or the PES.

Management fees payable during the six-month period ended 31 December 2015 were USD0.3 million. There were no outstanding accrued fees due to the Investment Manager at the reporting date (30 June 2016: nil) (Note 19).

(b) Realisation fees and incentive fees

Under the new Investment Management Agreement, the Investment Manager will receive a realisation fee and an incentive fee based on sales proceeds relating to the Private Equity Portfolio:

- 1) Upon realisation of the Company's private equity assets, the Company will pay a fee of 3% of the net sale proceeds of each asset realised once the net sale proceeds are received by the Company. Total realisation fee payable for the period ended 31 December 2016 amounted to USD0.2 million (31 December 2015: USD0.1 million) (Note 22), although USD1.5 million (30 June 2016: USD1.7 million) (Note 18) has been accrued as a future payable to the Investment Manager at the reporting date.
- 2) The Company will also pay an incentive fee of 10% of the amount by which the total return from the sale of private equity assets exceeds a hurdle amount of USD80.9 million. The total return equals the aggregate of all net sale proceeds and other distribution received by the Company from private equity investments. This incentive fee will be paid when the proceeds collected from private equity asset sales have exceeded the hurdle amount.

28 OPERATING LEASE COMMITMENTS

The Group leases various offices, land for BTS tower network and the IBS under non-cancellable operating leases expiring within two to eight years. The leases have varying terms, escalation clauses and renewal rights. On renewal, the terms of the leases are negotiated.

At the reporting date the Group has the following commitments under non-cancellable operating lease agreements:

	31 December 2016	30 June 2016
	USD'000	USD'000
Within one year	6,403	6,755
Within two to five years	7,751	9,897
Over five years	1,236	435
Total	<u>15,390</u>	<u>17,087</u>

Approximately USD14.1m of these commitments relate to SEATH subsidiaries which were sold subsequent to the reporting date (Note 5).

29 RECOGNISED FAIR VALUE MEASUREMENTS

a) Financial assets and financial liabilities

i) Fair value hierarchy:

The following table presents financial assets measured at fair value by valuation method. The different levels have been defined as below:

- Level 1: quoted prices (unadjusted) in active markets for identical assets;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the assets that are not based on observable market data (unobservable inputs).

The level within which the financial assets are classified is determined based on the lowest level of significant input to the fair value measurement.

As at 31 December 2016, there was no financial assets measured at fair value by valuation method held by the Company.

The financial assets measured at fair value in the condensed consolidated balance sheet as of 30 June 2016 were grouped into the fair value hierarchy as follows:

Recurring fair value measurements	Level 1	Level 2	Level 3	Total

29 RECOGNISED FAIR VALUE MEASUREMENTS (continued)

a) Financial assets and financial liabilities (continued)

During the period, there were no transfers between the fair value hierarchy levels (30 June 2016: nil). There were also no other reclassifications of financial assets in the current period and prior period.

ii) Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices for level 1 listed shares;
- the use of dealer quotes or published daily net asset value for level 2 unlisted shares;
- the fair value of borrowing is determined using discounted cash flow analysis.

iii) Valuation process

The Company's internal investment officers perform the valuation of listed and unlisted securities for financial reporting purposes. The valuation results are reported directly to the Audit and Valuation Committee and approved by the Board for adoption.

b) Non-financial assets and financial liabilities

i) Fair value hierarchy

This note explains the judgements and estimates made in determining the fair values of the non-financial assets that are recognised and measured at fair value in the condensed consolidated interim financial information. To provide an indication about the reliability of the inputs used in determining fair value the Group has classified its non-financial assets and liabilities into the three levels prescribed under the accounting standards. An explanation of each level is provided in Note 29(a).

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

29 RECOGNISED FAIR VALUE MEASUREMENTS (continued)

b) Non-financial assets and financial liabilities (continued)

i) Fair value hierarchy (continued)

The Group's policy is to recognise transfers into and out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer.

There were no transfers between levels in prior period.

ii) Valuation technique used to determine level 3 fair values

Specific valuation techniques used to determine the level 3 fair value include:

- sale comparison approach for level 3 investment properties as at 31 December 2016;
- discounted cash flow ("DCF") method for level 3 plant and machinery.

iii) Significant unobservable inputs (level 3)

The significant unobservable inputs used in the DCF calculation for the respective investment properties and plant and machinery are as follows:

VIHL IBS network

- Future IBS growth to generate incremental rental cash inflows - such growth is funded by recurring cash inflows from existing leases while rental for new IBS and tenants is based on the same terms as those of existing leases;
- Discount rates - reflecting current market assessment of the uncertainty in the amount and timing of cash flows; and
- Terminal value – reflecting management's view of long-term growth in the sector.

SEATH BTS tower network

- Future tower and tenancy growth to generate incremental rental cash inflows - such growth is funded by recurring cash inflows from existing leases while rental for new towers and tenants is based on the same terms as those of existing leases;
- Discount rates - reflecting current market assessment of the uncertainty in the amount and timing of cash flows; and
- Terminal value – reflecting management's view of long-term growth in the sector.

iv) Valuation process

The Group's plant and machinery (IBS) are valued by the independent professional qualified valuers who hold recognised relevant professional qualifications and have recent experience in the locations and categories of the plant and machinery being valued (IBS) or the Company's internal investment officers (BTS). The estimated fair values provided by the independent professional valuers and the Company's internal investment officers are used by the Audit and Valuation Committee as the primary basis for estimating each property's fair value. Management reviews the valuations performed by the Company's internal investment officers and the independent professional valuers for financial reporting purposes, and the valuations, as adjusted if appropriate, are approved by the Board for adoption after deliberation in the Audit and Valuation Committee.

- Terminal growth	0%	+1%	USD2.1m
- Leasing price per square metre per month	USD0.22 - USD0.29	-/+10%	(USD1.8m) – USD1.8m

Investment Properties – BTS network

After being classified as asset held for sale the fair value of BTS network is based on the pricing terms set out in the sale and purchase agreement.

Sensitivity as at 30 June 2016:

	Range of Unobservable inputs	Sensitivity on management's estimates	
		Change of input	(Loss)/gain to fair value due to change
Assets classified as held for sale			
Plant and machinery - IBS			
- IBS growth	5%	-/+1%	(USD0.4m) – USD0.4m
- Discount rate	16%	+/-1%	(USD1m) – USD1m
- Terminal growth	0%	+1%	USD2.1m
- Leasing price per square metre per month	USD0.22 - USD0.29	-/+10%	(USD1.8m) – USD1.8m

Investment Properties – BTS network

Before and after being classified as asset held for sale the fair value of BTS network was based on the price quoted on the sale and purchase agreement plus the additional cash generated from BTS business post year end which was confirmed by the buyer and utilised by the Company in November 2016.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

30 FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The condensed consolidated interim financial information does not include all significant risks, management information and disclosure required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 30 June 2016.

There have been no changes in the risk management department since period end or in any risk management policies.

31 SEASONALITY

The Group's management believes that the impact of seasonality on the condensed consolidated interim financial information of the Fund is not material.

32 SUBSEQUENT EVENTS

a) Distributions to the shareholders

On 31 January 2017, the Company announced the distribution of USD65.0 million which will be paid to PES shareholders early March 2017 (period ended 31 December 2015: nil) based on the record date 24 February 2017. This represented USD0.1856 for each PES currently in issue.

b) Disposal of SEATH

In August 2016, the Company reached agreement to sell the BTS portion of the portfolio to OCK Vietnam Towers Ltd for USD50 million. This transaction closed in December 2016, and the Company fully received the proceeds in January 2017. An additional working capital adjustment of approximately USD1.6 million is expected to be received in May 2017.

The condensed consolidated interim financial information was approved by the Board of Directors on 08 March 2017.
